VINYL OVER STEEL STEPS

VINYL OVER STEEL STEPS

Built-In Beauty

Latham's vinyl over step systems are a beautiful part of the pool structure. The vinyl liner literally covers the entire surface of the pool up to the decking, including the step, for a completely custom finished look. By choosing among a variety of step designs, benches and sunledges in our vinyl over steel or vinyl over open top steel steps, you can create a great place to sit, relax, and cool off.

VINYL OVER STEEL STEPS

Vinyl Over Steel Steps

Modular Steel Steps

We use only the best materials, top-notch engineering, and innovative manufacturing technology to create pool components of outstanding strength and durability. The 14-gauge copper bearing steel steps are coated with a 2.35 ounce zinc galvanization to prevent corrosion and assure a structure that is stable, strong, and durable.

Modular Open Top Steel Steps

Vinyl Over Open Top Steel Steps have an “open top” filled with stone and finished with concrete treads. The vinyl liner is positioned over the filled steel step for a completely uninterrupted pattern around the entire pool.

Open Top Steel Steps

When you choose from our Vinyl Over or Open Top Steel Steps, you can custom create integrated step and benches in a endless variety of styles.

These steps are quick, easy to install, and solid.
